Echoes from England...7, 62, 395, 645
Editorial:—
—Optimistic violet growers; Protection for tender plants in transit; The value of local exhibitions; Intrinsic value of the modern carnation; Of interest to the nursery trade; Improving packing methods; settling disputes 12
—Look out for fires; Ladies' night; Mutual obligations of wholesaler and retailer; Good wishes for the carnation men; The death of Samuel B. Parsons 38
—Sports versus seedlings; Burbank and his critics; Knowing why and wherefore; Poinsettias after cutting; Increase the duty on nursery stock..... 66
—Address inquiries to our office; Hasty conclusions and cold facts; The new schedule of the Mass. Horticultural Society..... 98
—Boston and her visitors; Effects of the mild weather; The coming Rose Show; The farmer and the forest; Advancing the carnation's interests; Where the small exhibitor stands..... 130
—Our supplement; Let us hear from you; The festive board and the fraternal spirit; The coming exhibition of roses; The commercial value of the exhibition; The florists' club and the retail dealer..... 164
—Nicotiana Sanderae in winter; Two varieties of hybridizers; The rose show will be a notable event; The return to nature; Forcing the lilac; Vicissitudes of the novelty list..... 186
—Making good our promise; The axe following the moth pests; Antagonizing the Agricultural College; Excluding worthless varieties from the exhibition table 220
—"The most unkindest cut of all;" For the advancement of the rose; A course of study in landscape work; Plant retrogression and the plant breeder.. 250
—Our rose number next week; Our frontispiece; Humbugs abroad; Florists' working hours; The Dayton outlook; American carnations winning recognition in England..... 284
—Our supplement; Meeting of American Rose Society; The free seed abuse; The Queen of Flowers; An outdoor exhibition at Dayton; The proposed national flower show..... 322
—What the Rose Number did; Better protection for the trees; Dayton's outdoor exhibtion; Boston greets the rosarians; Opportunities in landscape work; The florists' interest in hardy material..... 364
—Lengthening the rose list; Explaining the absence of the small exhibitor; The financial problem in the societies; The fertile florist and the pliant press; The green carnation; Some of the surprises at Boston. 398
—Easter greeting; For the Easter growers; The advantage of visiting; The indispensable wholesale florist; Mahomet goes to the mountain..... 442
—Ready for the next crop; Of interest to rose growers; Spare the native flowers; Back to the country life; The right spirit in emulation..... 488
—Popularity of the cactus dahlia; The backyard beautiful, on paper; Intelligent help needed in nursery and greenhouse; The day of reckoning..... 520
—Attractions of the fern garden; San Francisco's distress; Building up the club; Gardens for the multitude..... 552
—Cactus dahlia the Pilot; A reflection on the seed trade; San Francisco's parks her best asset; Extending the commercial cut flower list; An ominous advance in express rates..... 584
—A fair field for all; Get ready for Dayton; Bedding plant prospects; Concerning the dissemination of wholesale prices; Fighting the moths..... 616
—Decoration Day; To investigate injurious insects; An instance of short-sightedness; Some peculiar results of the past winter.. 646
—The cut flower trade and the Greek; Two important measures; A promising outlook for the gardener; Some Park attractions of the week..... 678
—Prosperity in the nursery trade; The great floral holiday; The peony; The Boston gardeners are admonished 706
—The coming peony show; Our advertisers have prospered; Rhododendrons; The menace of insects; Judges' problems..... 725
—The United States Express trouble; Where the Society of American Florists and Ornamental Horticulturists leads; The high art of arangement..... 762
—The close of a profitable year; Planning for next year; The store window in summer; About formal gardening 816
